

Ready Option

ARE YOU READY
FOR CLARITY?

Managing the world's most critical work

When risk is high,
prompt and effective services are essential

SOCIAL IMPACT

DISASTER MANAGEMENT

MENTAL HEALTH

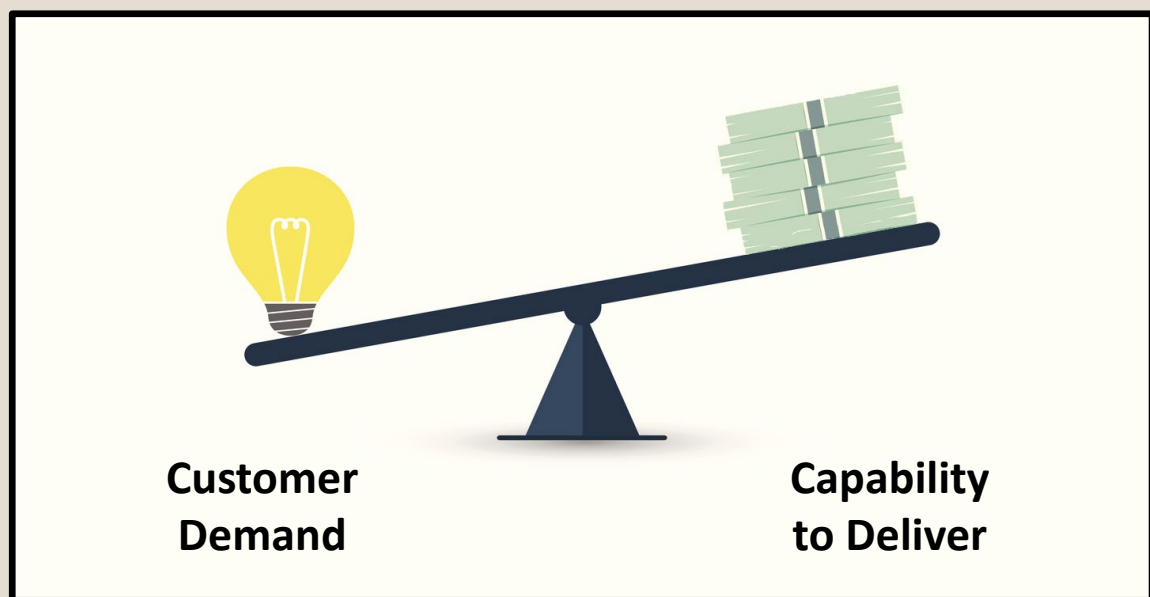

Is your system optimized
for a fast and reliable
response?

Service organizations struggle
with chronic issues within and between agencies

Work requests can shift or skyrocket suddenly.

Low budgets and heavy regulations create more strain on the system, throwing it further out of balance.

Most management methods rely entirely on expanding capability to deliver.

To achieve effective balance, there has to be a better way to manage customer demand
– without refusing work requests.

Ready Option works at 5 levels

1

Analyzes types and patterns of incoming work requests

2

Assesses current capability to fulfill work requests

3

Models the system of work with a detailed Kanban system

4

Applies techniques to optimize the system, improving performance and predictability

5

Adjusts the model – and system -- as customer needs change

Your work is a system

Gain clarity, understanding, and control

Be more responsive to customer needs

Optimize the steady flow of work

Improve worker satisfaction

Services worldwide

- Project Management
- Kanban Training
- Management Coaching
- Community Development
